

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

SCIENTIFIC BOOKS

THE CONTROL OF HUNGER IN HEALTH AND DISEASE

By ANTON JULIUS CARLSON, *Professor of Physiology at the University of Chicago.*

A summary of the work of the stomach, with special reference to hunger and appetite, carried on at the Hull Physiological Laboratory, at the University of Chicago during the last four years. 219 pages. Price \$2.00 net.

University of Chicago Press, Chicago, Ill.

STATE SANITATION

By GEORGE CHANDLER WHIPPLE, *Professor of Sanitary Engineering at Harvard University. Member of the Public Health Council, Massachusetts State Department of Health.*

The primary object of this book is to set forth the past work of the Massachusetts State Board of Health, so that it may be known by the people of the present generation. 377 pages.

The Harvard University Press, Cambridge, Mass.

PRINCIPLES OF OCEAN TRANSPORTATION

By EMORY R. JOHNSON, PH.D., Sc.D., *Professor of Transportation and Commerce of the University of Pennsylvania, and GROVER C. HUBNER, PH.D., Assistant Professor of Transportation and Commerce at the University of Pennsylvania.*

This book embodies all the principal changes that have recently occurred in methods of ocean transportation throughout the world. Illustrated with half-tones, maps and diagrams. 513 pages.

D. Appleton and Company, New York City

DESCRIPTIVE MINERALOGY

By WILLIAM SHIRLEY BAYLEY, *Professor of Geology at the University of Illinois*

A text-book for college classes, designed to give the student a comprehensive view of modern mineralogy, rather than a detailed knowledge of many minerals. 268 illustrations. 542 pages.

D. Appleton and Company, New York City

INORGANIC CHEMISTRY

By ALEXANDER SMITH, *Professor of Chemistry in Columbia University.*

A thorough treatise of inorganic chemistry for students beginning this study in college, university or professional schools. Third edition. 925 pages.

The Century Co., New York City

SOIL PHYSICS AND MANAGEMENT

By J. G. MOSIER, B.S., *Professor of Soil Physics, University of Illinois, and A. F. GUSTAFSON, M.S., Assistant Professor of Soil Physics, University of Illinois.*

The publication of this book fulfills three purposes: First, a text-book for agricultural students; second, a reference book for the practical farmer; and, third, an aid to the landowner who desires information in the management of his land. 202 illustrations. 442 pages.

J. B. Lippincott and Company, Philadelphia, Pa.

FIELD BOOK OF INSECTS

By FRANK E. LUTZ, *Associate Curator, Department of Invertebrate Zoology, American Museum of Natural History*

A popular treatise of the more common insects, with special reference to those of the Northeastern United States. 800 illustrations. 409 pages. Price, \$2.50 net.

J. P. Putnam's Sons, New York City

A TEXT-BOOK OF PRECIOUS STONES

By FRANK B. WADE, B.S., *Head of the Department of Chemistry, Shortridge High School, Indianapolis, Ind.*

This book presents, in as natural an order as possible, the fundamental principles and methods in use for identifying precious stones. 318 pages. Price, \$2.00 net.

J. P. Putnam's Sons, New York

COMPARATIVE ANATOMY OF VERTEBRATES

By J. S. KINGSLEY, *Professor of Zoology at the University of Illinois*

A text-book of comparative anatomy, laying special emphasis on the embryological side of the study. Second edition. 406 illustrations. 449 pages. Price, \$2.00 net.

P. Blakiston's Son and Company, Philadelphia, Pa.

TOPOGRAPHY AND STRATEGY IN THE WAR

By DOUGLAS WILSON JOHNSON, *Associate Professor of Geography, Columbia University.*

This book treats the relationship between inanimate nature and the science of war and gives a picture of the different war fronts in order that the military campaigns of the war may be followed with greater ease. 211 pages. \$1.75 net.

Henry Holt & Co., New York

GENERAL ZOOLOGY

By A. S. PEARCE, *Associate Professor in the University of Wisconsin.*

This book has been written to be read by students of eighteen to twenty years of age. With this idea in view both the illustrations and text have been prepared more in the style of a natural history than of an anatomy. 366 pages.

Henry Holt & Co., New York

HISTORY OF MEDICINE

By FIELDING H. GARRISON, *Principal Assistant Librarian, Surgeon General's Office, Washington, D. C.*

This volume has been written with a definite intention of stimulating the student to do his own thinking and research, by interesting him in the subject from the start. 905 pages. Cloth \$6.50 net.

W. B. Saunders Co., Philadelphia, Pa.

A SHORT HISTORY OF SCIENCE

By W. T. SEDGWICK and H. W. TYLER *of the Massachusetts Institute of Technology.*

This volume seeks to furnish the student and the general reader with a concise account of the origin of our scientific knowledge and scientific methods. 474 pages. Price \$2.50 net.

The Macmillan Co., New York

EVERYMAN'S CHEMISTRY

By ELLWOOD HENDRICK, *New York City.*

This book aims to give to the average man a general realization of the tremendous importance of chemistry and its application in actual life. 373 pages.

Harper & Brothers, New York

SCIENCE PROGRESS

A QUARTERLY REVIEW OF SCIENTIFIC THOUGHT, WORK AND AFFAIRS

EDITED BY SIR RONALD ROSS, F.R.S., D.Sc., M.D., Etc.

SCIENCE PROGRESS owes its origin to an endeavor to found a scientific journal containing original papers and summaries of the present state of knowledge in all branches of science. The necessity for such a journal is to be found in the fact that, with the specialization which necessarily accompanies the modern development of scientific work and thought, it is increasingly difficult for even the professional man of science to keep in touch with the progress achieved and the trend of thought in subjects other than those in which his immediate interests lie. This difficulty is felt by teachers and students in schools and colleges, and by the general educated public interested in scientific questions. SCIENCE PROGRESS claims to have filled this want.

Published early in January, April, July, and October, by John Murray, 50a, Albemarle Street, London, W., England. Price of a single number is 6/- net. Annual subscription (including postage) 25/6.

The Philippine Journal of Science

ALVIN J. COX, M.A., Ph.D., General Editor

Published by the Bureau of Science
of the Government of the
Philippine Islands

A Periodical Devoted to the Scientific and Commercial
Interests of the Tropics

The Journal, now in its twelfth volume, is issued in four sections. Each section consists of six numbers a year, in separately paged and indexed, and is a complete publication in itself.

YEARLY SUBSCRIPTION RATES

Section A. Chemical and Geological Sciences and the Industries.....	\$2.00
Section B. Tropical Medicine.....	3.00
Section C. Botany	2.00
Section D. General Biology, Ethnology and Anthro- pology	2.00
The four sections to one subscriber.....	7.00

A complete list of the publications of the Philippine Bureau of Science and a sample copy of the Philippine Journal of Science will be sent upon request.

Subscriptions and orders for publications should be sent to

SCIENCE

A WEEKLY JOURNAL DEVOTED TO THE ADVANCEMENT OF SCIENCE

FRIDAY, MAY 9, 1919

The Physiology of the Aviator. Professor Yandell Henderson.
A New Deposit of Uranium Ore. S. C. Lind and C. W. Davis.
Scientific Events:—

Conference on High-School Biology; Appointments at Harvard University; The National Academy of Sciences.

Scientific Notes and News

University and Educational News.

Discussion and Correspondence:—

Apropos of the Proposed Historical Science Section. Professor G. A. Miller. Vitamin Tests with Chicks. R. J. Seymour and E. P. Durrant.

Quotations:—

The British Air-force Estimates and Aero-nautical Research.

Scientific Books:—

Ritter on Description, Definition and Classification in Philosophical Biology. Walter P. Taylor.

Special Articles:—

To cut off Large Tubes of Pyrex Glass. Professor Charles T. Knipp.

The Illinois State Academy of Science. J. L. Pricer.

Single Numbers 15 cents

FRIDAY, MAY 16, 1919

The American Society of Zoologists:—

Methods of Securing Better Cooperation between Government and Laboratory Zoologists in the Solution of Problems of National Importance. Dr. L. O. Howard, Professor J. G. Needham.

The National Research Council:—

The Organization of the National Research Council; Membership of Divisions; Research Fellowships.

The Industrial Fellowships of the Mellon Institute.

Scientific Events:—

Mineral Deposits in the United States; Summer Biological Stations; Distinguished Service Medals.

Scientific Notes and News

University and Educational News

Discussion and Correspondence:—

An Immune Variety of Sugar Cane. C. O. Townsend. The Use of Poison Gas. Henry Leffmann.

Scientific Books:—

Renaissance Anatomy. Roy L. Moodie.

Special Articles:—

Certain Conglomeratic Structures in Limestones in Central Pennsylvania. Harry N. Eaton.

Minutes of the Committee on Policy of the American Association for the Advancement of Science.

The Utah Academy of Sciences. C. Arthur Smith.

The Kansas Academy of Science. E. A. White.

SCHOOL AND SOCIETY

A weekly journal covering the field of education in relation to the problems of American democracy

Edited by J. McKEEN CATTELL

SATURDAY, APRIL 26, 1919

The Financial Basis of English Education: I. L. Kandel.
The History of Education in the Normal School: Charles C. Hewitt.
College Training for Teachers of Agriculture: Frederick H. Blodgett.
Educational Events:
The Williams Memorial Building for the Yale University Press; Instruction in Gardening at the New York Botanical Garden; The Salaries of Teachers in New York State; Inauguration of the President of Knox College.
Educational Notes and News.
Discussion and Correspondence:
Educational Aims—a Psychologist's View: W. H. Pyle.
Quotations:
Massachusetts and its Schools.
Reforms in American Schools.
Salary Schedule of the Detroit Public Schools.
Educational Research and Statistics:
Rating Grades of Graduates of the Field Artillery Central Officers' Training School: Raymond Walters.
Societies and Meetings:
The American Home Economics Association.

SATURDAY, MAY 10, 1919

The Offenburg and Freiburg Resolutions and the Influence of the Classics: Warren Washburn Florer.
The Defective Scholarship of Our Public Schools. The Pernicious Influence of the Colleges for Teachers: Harris Hancock.
Plan for a Personnel Bureau in Educational Institutions: C. S. Yoakum.
Educational Events:
The Wharton School of the University of Pennsylvania; Appropriations for the University of Michigan; Resolutions of the Massachusetts School Superintendents; Comparative Tests of School Children; The National Conference of Social Work.
Educational Notes and News.
Discussion and Correspondence:
Classical Training and Efficiency: Alexander Duane. The Important Centers of Character: Milton Fairchild.
Quotations:
Justice for the Foster-parents of our Children.
Educational Research and Statistics:
Intercollegiate Athletics in relation to Physical Training: F. L. Kleeberger.
Societies and Meetings:
Department of Normal Schools of the National Education Association: Anna M. Tibbets; The American Association of Collegiate Registrars: Raymond Walter.

SATURDAY, MAY 3, 1919.

Cardinal Principles of Secondary Education: David Snedden.
The Financial Administration of Education: Leonard M. Passano.
Educational Events:
College of Fisheries at the University of Washington; Changes in the Curriculum of Princeton University; The Child Labor Bill; Pensions for Ohio Teachers; Teachers returning from Military Service.
Educational Notes and News.
Discussion and Correspondence:
Is the Manual Instructor worthy of his Hire? E. O. Eastwood. Goldsmith on Teachers and Teachers' Salaries: H. Ibershoff.
Quotations:
Freedom of Thought and the State.
Educational Research and Statistics:
Results of Intelligence Tests at the University of Illinois: David Spence Hill.
Societies and Meetings:
The National Association of Secondary School Principals: H. V. Church.

SATURDAY, MAY 17, 1919.

Organization and Function of a Bureau of Educational Research: E. J. Ashbaugh.
Some Limitations of the Social Emphasis in Education: John M. Mecklin.
Educational Events:
Memorial to Professor H. Morse Stephens at the University of California; Organization of Teachers of Spanish; The Associated Teachers' Union of New York City; The National Committee for Teaching Citizenship.
Educational Notes and News.
Discussion and Correspondence:
Reconstruction and Physical Education: Warren E. Forsythe.
Quotations:
Exchequer Grants to the British Universities.
A Code of Ethics for the Teaching Profession.
Educational Research and Statistics:
Use of the Phonograph in improving Speech: Dora Williams.
Societies and Meetings:
Schoolmen's Week at the University of Pennsylvania.

The Scientific Monthly

Entered as second-class matter October 1, 1915, at the post-office of Lancaster, Pennsylvania,
under the Act of March 3, 1879

CONTENTS OF THE APRIL NUMBER

Papers Presented before the Section of Social and Economic Science of the American Association for the Advancement of Science:
France after the War. The Honorable Edouard de Billy.
Reconstruction in Great Britain Following the War. Sir H. Babington Smith.
China after the War. Consul-General Chao-Hsin Chu.
The Future of Russia. Jerome B. Landfield.
Germany after the War. Dr. David Jane Hill.
Some Agencies in the Development of Closer Relations with the Countries of Central and South America. Dr. L. S. Rowe.
A League of Nations as a Tangible Organization. Herbert S. Houston.
The Work of the Department of Labor of the United States During the War. The Honorable Louis F. Post.
The Legal and Constitutional Aspects of the Prohibition Amendment to the Federal Constitution. Seymour C. Loomis.
The Economics of Safety. Lew R. Palmer.
An Entomological Cross Section of the United States. Professor J. Chester Bradley.
The Progress of Science:
Presentation of the Portrait of Professor Chamberlin;
The Foreign-born Population of the United States;
The Use of Helium for Airships; scientific Items.

CONTENTS OF THE MAY NUMBER

Biometric Standards for Energy Requirements in Human Nutrition. Dr. J. Arthur Harris and Dr. Francis G. Benedict.
An Entomological Cross-Section of the United States. Professor J. Chester Bradley.
Psycho-Physical Tests of Aviators. Professor George M. Stratton.
Delusion, Mass-Suggestion and the War: A Dream and the Awakening. Professor Joseph Jastrow.
Tropical Versus Arctic Exploration. The Late Theodoor De Booy.
The Old Internationalism and the New League of Nations. Dr. C. C. Eckhardt.
The Psychology of Democracy in Public Education. Professor David Spence Hill.
Nervous and Other Forms of Protoplasmic Transmission. Professor Ralph S. Lillie.
The Progress of Science:
Education for American Soldiers in France: The American Museum of Natural History; Exploration in the American Arctic Regions; Scientific Items.
